

# QUANTUM SYSTEMS

Dear Partner,

we always strive to let our customers benefit from the newest soft- and hardware improvements. Therefore, we would like to inform you that there was a new release yesterday, April, 4th of 2024. As there were some rare issues with the link provided in yesterdays mail, we've attached a new direct link to the files.

## **Trinity Payload Qube240 | Firmware Update | APX15 V8.21.004**

A new firmware for the Inertial Navigation System APX15 used by the Qube240 has been released recently. This firmware seems to correct an erratic error that occurred on several units in the past.

As a **preventive** action, we ask you to proceed with the firmware update, please read the procedure document included in this email.

Procedure document

If you have any questions please contact the Quantum-Systems Support.
